Subject: Microsoft Settlement!

Sirs:

It is my belief that prolonging litigation is not in the "best interest" of our economy or concerned citizens. I will concur the agreement you reached tentatively is in the "best interest" of all consumers...so stop procrastinating and allowing these special interest groups to intervene. Get the show on the road and settle this case! This is absolutely ridiculous and very costly to everyone by allowing such utter nonsense to continue this long. Please allow Microsoft the freedom to innovate!

Thank you for your time and consideration in allowing me the opportunity to voice my opinion regarding this settlement.

Sincerely,

Frances Leonardini
